SM

The Health Care Industry . . .

Complex

. . . Hard to do business with

What Are We Doing About It?

- Simplifying and adding value in the clinical interface
 - ◆ Care CoordinationSM
 - ◆ Making data available (Clinical ProfilesSM, Care PortraitSM)
- Simplifying and adding value in the administrative interface
 - ◆ Connectivity and technology solutions

Care Coordination SM

Completely replaces the traditional utilization management processes.

OLD

Medical Management

- Pre-certification
- Prior Authorization

NEW

Care Coordination SM

- Notification (exception based)
- Identify needs and gaps in care
 - ◆ Hospital admissions
 - ◆ Counseling
 - ◆ Hospital in-patient care advocacy
 - ◆ Welcome Home!
 - ◆ Impact

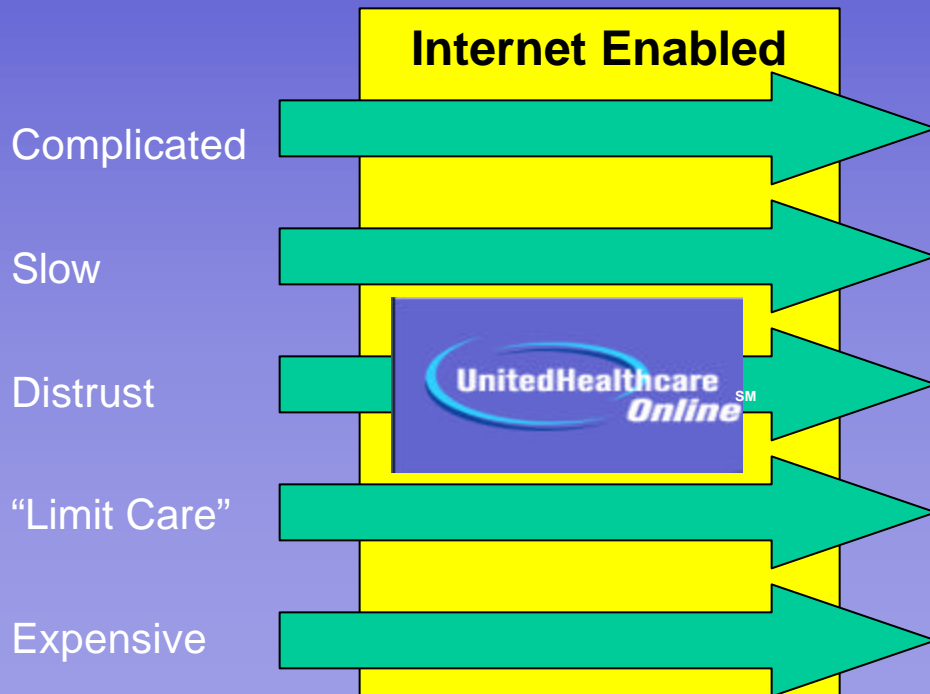

Administrative Simplification

- Offering a portfolio of direct connectivity solutions, initially transactionally focused
- Enabling physicians, hospitals and other healthcare professionals to connect with us in whatever way is most convenient for them
 - ◆ www.UnitedHealthcareonline.com
 - ◆ Customer Service Enhancements
 - ◆ WebMD

Our Connectivity Vision

Internet enable every transaction between UnitedHealth Group and our contracted physicians and health care providers

Current Environment

Future Environment

Simplified, Paperless

Fast

Building Trust, Ensuring Privacy & Confidentiality

Support Timely Delivery of Quality Health Care

Value Oriented, Supportive, Less Costly

Functionality

- UnitedHealthcare OnlineSM contains additional valuable information for medical practices such as:
 - ◆ Physician and Provider Directory
 - ◆ Preferred Drug List
 - ◆ Medical Policy
- Future functionality will build from the core transactional capability to meet more needs of the physician and clinical staff
- New functionality will be added on a regular basis

Research Findings ⁽¹⁾

The real appeal of UnitedHealthcare OnlineSM is as a hard working transactional site. The primary users would be office staff in physician's offices, hospitals and other health care professional offices

Core users are those who:

- ◆ check eligibility
- ◆ check claims / outstanding receivables
- ◆ admit patients

(1) Focus groups Oct. 2000, Small Group Qualifications April 2001

In-Market Testing

(Beta Tests)

Test Markets

Jacksonville, FL

Orlando, FL

Tucson, AZ

St. Louis, MO

Practices / Hospitals

- ◆ Sixty-four practices representing 900+ physicians and two hospitals

- ◆ Specialty and non-specialty practices represented

Findings

- ◆ Primary use is for member eligibility and checking claim status

Introduction Plan

- Staged market roll-out begins July 2001
- Our strategy is to enter a market and fully deploy before moving to the next market
- Any participating physician or hospital can access UnitedHealthcare OnlineSM beginning August 2001
- Awareness and support from organizations and associations is an important component to a successful roll-out

Conclusion

- UnitedHealthcare is actively seeking to simplify and to become an easier company with which to do business
- Administratively we seek to connect directly with physicians, hospitals, and other health care professionals and their offices
- **www.UnitedHealthcareonline.com** is the new physician and provider portal for direct transactional connectivity with UHC
 - ◆ Most powerful application in member eligibility and claims status inquiry
 - ◆ Simplest and easiest manner to interface with UHC
 - ◆ Market introduction underway
